Regulated assets and the role of public-private partnerships – addressing a failing model with practical solutions?

Given the high-profile controversy around Thames Water and instability across other essential utility companies, this session provides a health-check on the state of public-private partnerships in this sector in the UK & beyond:

1. Busting myths and discriminating fact from fiction – what has truly happened with Thames Water and other struggling utility companies?

For information on how to join the Investor Forum, please [get in touch](#) with a member of the team.

2. Has the media narrative helped or hindered finding practical solutions?
3. Looking forwards constructively – what needs to be true to attract the level of investment needed to create long term resilience of our key assets. How can the private sector really make positive changes that will improve the quality and longevity of these vital assets?

Dr. Emma FitzGerald, Independent NED, **Seplat Energy**, **Newmont**

Moderated by: Jon Phillips, Chief Executive Officer, **Global Infrastructure Investor Association**
