Key sessions in 2025

[View agenda ↗](#)

- » What do the concepts of 'land transition' and 'planetary boundaries' in investing entail?
- » What are the investment opportunities that have deep impact in protecting the biosphere?
- » Is conservation a 'sticking plaster' solution relative to the scale of degradation occurring?
- » What are the most pressing issues in biodiversity (soil health, ocean acidification, deforestation)?

- » Is impact investing overly idealistic or ideological?
- » Climate change is very palpable now, has the time come for a serious shift from mitigation to adaptation?
- » What does the Trump administration mean for global environmental efforts?
- » Should, or do, impact assets have a premium added to them at exit?

- » Is it possible to turn asset-heavy impact venture into mature companies?
- » What are the lessons of Northvolt's demise?
- » Climbing down the cost curve: who will pay for going down the cost curve?
- » What role will industrial policy and subsidies play in a transition?

Targeted Content

Gain valuable insights from top-tier managers on the latest investment opportunities and emerging innovations. Connect with like-minded attendees and explore what's ahead through our four focused content stream:

- » Tech and innovation
- » Social and inequality
