Agenda highlights

Explore how you can develop sustainable investment strategies that can enhance your returns.

Investor perspectives on the significance of sustainability on investment decisions

- » To what extent is ESG impacting investment decisions?
- » How are LPs integrating the EDCI within their wider data requests?
- » LP views on the effectiveness of ESG strategies in driving long-term value and mitigating risks
- » What are the new areas LPs are asking managers about?

iCI initiative update: Advancing decarbonisation pathways at both fund and portfolio company levels

- » To what extent are firms engaging with SBTI's to validate decarbonisation strategies?
Considering why some firms do not plan to set targets
- » Practical steps for enhancing data collection, quality, and transparency in implementation efforts
- » Exploring the complexities of scope 3 emissions and their status within private markets
- » Case studies and guidance to drive emissions reduction through supplier engagement

How to practically approach biodiversity as an investor

- » Why aren't LPs pushing harder on biodiversity?
- » To what extent is biodiversity a potential distraction from decarbonisation?
- » How to assess biodiversity risks and opportunities in the diligence process

360° Value Creation

Networking

Advance your sustainability strategy by connecting with your peers over a two-day program designed to foster connectivity and learning opportunities.

Join focused discussions

Engage with investors, fund managers & expert advisors to discuss the key issues impacting sustainability professionals working in private markets.

Build meaningful connections

Network during a range of interactive workshops, drinks receptions, invite-only breakfasts, working groups and more.

Connect ahead of the event

Secure your spot early to take advantage of the event app. See who you'll meet, and book in meetings in advance to ensure you get the most out of the networking available.
